SUMMARY

- Motivated Computer Science (Artificial Intelligence) student with a strong proficiency in Python, Java, and C. Seeking a software internship to apply programming skills, contribute to innovative projects, and gain hands-on experience in software development.

SKILLS

- Programming Languages:** Java, Python, MySQL
- IDEs:** VS Code, PyCharm
- Soft Skills:** Adaptability, Collaboration, Attention to Detail

PROJECTS

Voter Management System

- Developed a Java application for managing voter card details, including registration, updates, and verification.
- Implemented secure user registration, data validation, and authentication to ensure data integrity.
- Integrated MySQL with JDBC for efficient database management and real-time query execution.
- Enhanced the system with update and search functionalities for a streamlined user experience.

Gesture Recognition

- Built a machine learning model to recognize and classify hand gestures for human-computer interaction.
- Designed and implemented a convolutional neural network (CNN) to analyze video frames in real time.
- Leveraged OpenCV and TensorFlow to enable accurate gesture recognition with high responsiveness.
- Focused on optimizing model performance and reducing computational overhead.

Text Summarization

- Developed a machine learning model for automatic text summarization to generate concise document summaries.
- Implemented extractive and abstractive summarization techniques to enhance text comprehension.
- Utilized advanced NLP libraries such as Hugging Face Transformers and NLTK for text processing.
- Designed a simple user interface to allow seamless document input and summary output.

EXTRA-CURRICULAR ACTIVITIES

- Led a student organization focused on advancing computer science knowledge through workshops, hackathons, and guest lectures. Increased club participation by 40% through effective event coordination.
- Actively participated in social welfare initiatives as a member of the Saviours Voluntary Organisation, working to meet basic needs of underprivileged communities.

LEADERSHIP

- Team Management:** Organized, motivated, and guided teams to achieve shared objectives.
- Motivation and Inspiration:** Inspired peers to perform at their best and foster a collaborative environment.
- Communication:** Articulated goals, expectations, and feedback effectively.

EDUCATION

- Bachelor of Engineering in Computer Science and Engineering (AI)**, P.B.R. Visvodaya Institute of Technology and Science, 2022–2026 (Current CGPA: 9.1)
- Intermediate Education (MPC)**, Narayana Junior College, Kavali, 2020–2022 (Aggregate: 95.4%)
- High School (10th Grade)**, Ratnam E.M. High School, Kavali, Andhra Pradesh, India, 2020 (Grade: 10/10)

LANGUAGES

- Telugu (Native), English (Proficient), Hindi (Intermediate)
