PROFILE

Motivated student with a strong foundation in modern technologies. Experienced in developing visually appealing and user-friendly applications. Self motivated and sensible to handle multiple responsibilities and can be versatile as per requirements.

PROFESSIONAL EXPERIENCE

MARKETING INTERN, Talent trek E-Learning company 01/2025 – 04/2025
Banglore, India

- Successfully learned the marketing strategies.
- And improved my communication and leadership skills.

AI&ML-Intern, Talent trek E-Learning company 01/2025 – 04/2025
Banglore, India

- I gained hands-on experience in AI and Machine Learning, focusing on python, ML-Algorithms, and various Libraries.
- This role further strengthened my technical abilities and reinforced my commitment to continuous learning.

Cloud Computing-Intern, <https://learnnex.in/> 12/2024 – 02/2025
Remote

- I gained valuable experience in Cloud Computing Models,Azure's Infrastructure, Azure CLI, and Powershell.
- I successfully completed all assigned tasks, including deploying Multi-Tier Architecture app in Cloud.

EDUCATION

Bachelor of Technology (B.Tech), 2022 – 2026
PBR Visvodaya Institute of Technology & Science,Kavali Kavali, Andhrapradesh
CGPA-8.92

Intermediate(MPC), MJPAPBCWR Junior College[BOYS], Kota 2020 – 2022
CGPA-8.75 Kota, Andhrapradesh

Metriculation, Andhrapradesh Residential School[BOYS],Gandipalem 2018 – 2019
CGPA-9.96 Gandiplaem, Andhrapradesh

SKILLS

Frameworks and Libraries — Amateur
— HTML | CSS | Javascript | React | JQuery | Scikit-learn | pandas |ML | NLP | CC | AWS |Azure

Database Knowledge — Proficient
— MySQL | MongoDB Atlas

Programming languages — Competent
— C | Java | Python

Soft Skills — Proficient
— Communication | Adaptability | Quick learning | Leadership

PROJECTS

Heart Disease prediction, detecting heart disease-Logistic Regression[ML]

03/2025 – 03/2025

- The project uses a .CSV dataset (e.g., UCI Heart Disease dataset) containing clinical data like age, sex, chest pain type, cholesterol, blood pressure, etc.
- *Simplicity & Interpretability*: Logistic Regression is easy to implement and interpret, making it ideal for healthcare domains where explainability is critical.
- *Early Diagnosis Tools*: Helps hospitals and clinics build early screening tools for heart disease using patient input data.

Dynamic Roadmap Generator

06/2025 – 07/2025

- *Smart Roadmap Generation*: Users enter their learning goal and duration; the app uses Gemini AI to generate a structured, week-wise learning plan with helpful resources.
- *User Authentication & Progress Tracking*: Secure registration/login with JWT allows users to access personalized roadmaps anytime, ensuring progress is saved and accessible.
- *Real-Time Educational Use*: Ideal for students, self-learners, and career switchers to plan and follow customized learning paths — replacing random searches with focused learning

CERTIFICATES

- | | | |
|---|--|---|
| • AWS Workshop completion certificate | • coding for data - sololearn platform | • Prompt Engineer - sololearn platform |
| • Cloud Computing Internship Excellence | • AI&ML internship Excellence | • servicenow- CSA and CAD certification |
